Solids % by Wt.	27%		
Voc.	595. G/L		
Density	.93		
Pot Life	NA		
Shelf Life	12 Months		
Dry Times	ry Times Approximate Drying Times At 4-5 Wet Mils		
Dust Free	10 Minutes	Note:	an thiologo
Handling	25 Minutes	Drying times may vary depending of applied, temperature and/or humic	
OverCoat	90 Minutes	Warning:	
Stackable	12 Hours	Total film thickness of the finish sh exceed 6 mils dry film.	ouia not

#### **Notes And Remarks:**

- It is not recommended to apply amino-ureic coating like this one on top of polyurethane. If the curing process is not complete, defects may appear.
- The curing process of this product is greatly improved by heat/oven curing.
- To achieve a good pot-life, please keep any unused mixture away from air by covering the container with a lid or plastic.
- Thinner selection and ambient temperature will directly influence the pot-life.

The data provided in this technical sheet correspond to the values and characteristics of the product offered, in relation to our skills and experience. Novalk guarantees the physical-chemical characteristics of its products, as well as their consistency. However, the responsibility for the final result of the product application is to be considered up to the user, who must ensure that the selected product corresponds to his application needs and to the type of support selected. The viscosity level of highly thixotropic products may differ from what is reported in the technical data sheet. To be considered acceptable, this value should differ by a maximum of 30% from the reported value in the technical data sheet.
